

## 1/25/17 – Vroom Service Now

With so many new methods of food delivery service popping up across big cities, would you believe the greater Danbury area has been reaping the benefits of a convenient food delivery service since 2010? That's right, Vroom Service, a multi-restaurant delivery service, has been providing customers in the Danbury area with quick and convenient food delivery from a growing list of restaurants.

Vroom is available in the towns of Monroe, Newtown, Danbury, Brookfield, Bethel, Ridgefield, New Milford, Sherman, Gaylordsville, and New Fairfield and is partnered with a number of restaurants throughout the area. They ensure that within about one hour of placing an order you will have a hot meal in the comfort of your home, office, or hotel room.

Deciding between sushi or nachos? Get them both! Vroom will stop at multiple restaurants to satisfy ALL of your cravings. This service may actually stop people from arguing over where to order from and if that isn't innovative enough, I don't know what is!

Vroom is frequently adding more restaurants to its list of partners but welcomes customers to let any businesses who are not aware of the service know about the option to join in.

So what are you waiting for? Go check out your options! Really, they have a ton to choose from! Visit:
